

Bree Voss

Making AI Make Sense.

AI Builder / Educator

Speaker / Business Consultant

THE INTRODUCTION

Practical thinking. Clear conversations.

Bree Voss is an AI builder, educator, speaker, and business consultant with a background in accounting and financial operations. Her work brings a practical business perspective to emerging technology, with a focus on making AI understandable and useful. Her guiding idea: Making AI Make Sense.

POTENTIAL DISCUSSIONS

01 Making AI Make Sense

A plain-language starting point for understanding AI and asking better questions about it.

02 From business process to AI possibility

Looking at workflows through an accounting and financial operations lens.

03 The human side of automation

Where AI can support people, and where review, context, and judgment still matter.
